

# Ariel Mundo

Postdoctoral Fellow

Department of Biomedical Engineering · University of Arkansas · Fayetteville, AR

✉ [aimundo@uark.edu](mailto:aimundo@uark.edu) ☎ +1 479 800 8714 🌐 [aimundo](https://aimundo.github.io) 🌐 [aimundo.rbind.io](https://aimundo.rbind.io) | Updated: May. 26, 2022

## Education

University of Arkansas, PhD. Biomedical Engineering May 2022

Universidad Rafael Landivar (Guatemala), B.S. Chemical Engineering (*cum laude*) 2009

## Research Experience

Postdoctoral Fellow (University of Arkansas, Fayetteville, AR) May 2022-Present

Working at the Translational Biophotonics and Imaging Laboratory in the Department of Biomedical Engineering to analyze longitudinal optical and molecular data.

Graduate Research Assistant (University of Arkansas, Fayetteville, AR) Aug 2017- May 2022

Designed and executed experiments in an animal model of colon cancer using optics and molecular biology to longitudinally quantify changes in perfusion and gene expression in response to therapy. Implemented Statistical semi-parametric models (generalized additive models) to analyze longitudinal data.

## Other Relevant Experience

### Universidad Rafael Landivar

Teaching Assistant Professor 2016-2017

Professor of Chemistry at the Environmental and Agricultural Sciences Department

Prepared lectures, supervised labs, mentored students, wrote lab manuals

Adjunct Professor 2013-2017

Taught Introductory Chemistry in the Engineering, Environmental and Agricultural, and Health Sciences Departments

### Lacteos Balcanicos Glad

Assistant Plant Engineer 2012

In charge of the production of the main product (yogurt,  $\approx$  3000 L per week)

## Publications

### JOURNAL ARTICLES

**Mundo, Ariel I.**, Muldoon, Timothy J. "Longitudinal examination of perfusion and angiogenesis markers in primary colorectal tumors shows distinct signatures for metronomic and maximum-tolerated dose strategies". (Preprint available in *bioRxiv*. Submitted to *Neoplasia* on Feb 2022, currently under review). Preprint: <https://doi.org/10.1101/2022.02.07.479423>

**Mundo, Ariel I.**, Tipton, John R., Muldoon, Timothy J.. "Generalized additive models to analyze non-linear trends in biomedical longitudinal data using R: Beyond repeated measures ANOVA and Linear Mixed Models." (Preprint available in *bioRxiv*. First revision submitted to *Statistics in Medicine* on Jan 2022, currently under review). Preprint: <https://doi.org/10.1101/2021.06.10.447970>

**Mundo, Ariel I.**, Greening, Gage, Fahr, Michael J., Hale, Lawrence N., Bullard, Elizabeth, Rajaram, Narasimhan,, and Muldoon, Timothy J. "Diffuse reflectance spectroscopy to monitor murine colorectal tumor progression and therapeutic response." *Journal of Biomedical Optics* (2020). <https://doi.org/10.1117/1.JBO.25.3.035002>

Greening, Gage, **Mundo, Ariel I.**, Rajaram, Narasimhan, Muldoon, Timothy J. "Sampling depth of a diffuse reflectance spectroscopy probe for *in-vivo* physiological quantification of murine subcutaneous tumor allografts". *Journal of Biomedical Optics* (2018). <https://doi.org/10.1117/1.JBO.23.8.085006>

## CONFERENCE PRESENTATIONS

**Mundo, Ariel I.**, Muldoon, Timothy J. "Longitudinal optical and molecular quantification provides insight into the effect of different dosing strategies in colorectal cancer". 2022 Biophotonics Congress: Biomedical Optics, Fort Lauderdale, FL, USA, April 2022.

**Mundo, Ariel I.** "Statistics and Reproducibility in Biomedical Research: Why we need both". Toronto Workshop on Reproducibility, University of Toronto, February 2022. Recording available [here](#).

**Mundo, Ariel I.** "Using generalized additive models for biomedical longitudinal data. *When linear models don't work*". RMedicine 2021 Conference. Recording: <https://tinyurl.com/39epnnp6> Repository (slides and data): <https://aimundo.rbind.io/talks/gams-biomedical/>

"Characterization of a multimodal endoscopically deployable veterinary spectroscopy and imaging probe to determine therapeutic response in a murine orthotopic tumor model." In Label-free Biomedical Imaging and Sensing (LBIS) 2019, vol. 10890, p. 108901L. *International Society for Optics and Photonics*, 2019.

## Awards and Recognition

*Centre de recherches mathématiques (CRM) MfPH-CRM Postdoctoral Fellowship*

July 2022

Received postdoctoral fellowship for one year to analyze public health and behavioral data (CAD 50,000)

*BME Rising Scholar*

June 2022

Selected by the committee of the BME Scholars Program at Washington University in St. Louis to receive mentorship about pathways and professional success in academic careers. Award included paid travel, conference attendance and honorarium.

*Professional Awareness, Advancement, and Development (PADD) Scholar*

2020-2021

Received funding and participated in the PAAD program to supplement my graduate education in persuasive speaking, commercialization, and data science (USD 1,500).

*OMNI Endowed International Scholarship*

2020

Granted as a scholar fulfilling the mission of the OMNI Center in Fayetteville (USD 500)

*Fulbright Faculty Development Scholarship*

2017-2019

Scholarship covered all costs of my PhD for the first two years. Only two scholarships awarded for that period in the whole country. (USD 78,000)

## Grants

*Arkansas Biosciences Institute 2021 seed grant competition*

2021

Main author on a proposal co-submitted with Dr. Timothy Muldoon to examine gene expression and optically derived markers in a mouse model of colorectal cancer (\$30,000 in funding). *Proposal scored in the top 2 of all the individual research projects for the cycle.*

*Future applications*

During my early postdoctoral training I plan to apply for funding opportunities at CANSSI, Mitacs, the Fields Institute, CIHR, and NSERC.
