

Ariel Mundo Ortiz

Postdoctoral Fellow

Centre de Recherche du CHUM

✉ aimundo.ortiz@gmail.com ☎ +1 438 875 9203 🌐 aimundo.rbind.io | Updated: Jul. 7, 2026

Education

University of Arkansas, PhD. Biomedical Engineering

May 2022

Universidad Rafael Landivar, B.S. Chemical Engineering (*cum laude*)

2009

Research Experience

Postdoctoral Fellow, Centre de Recherche du CHUM (Montreal, QC)

January 2024- Present

Working at the NG lab at CRCHUM in projects at the intersection of bioinformatics, vital signs, and personalized medicine. In charge of developing data analysis pipelines, statistical analyses, manuscript writing and revision. Postdoctoral research published in *Practical Laboratory Medicine* and *The Journals of Gerontology: Series A*.

Postdoctoral Fellow, Département de médecine sociale et préventive et au centre de recherche en santé publique (Université de Montréal, Montreal, QC)

July 2022- December 2023

Worked at the Nasri Lab at the School of Public Health (ESPUM) in projects of infectious disease modelling, including spatial analyses. Duties included writing, editing, and revising academic manuscripts, doing literature searches, coordinating projects with students and collaborators, contributing to write grants from the lab, writing code to clean and analyze data. First year of postdoctoral fellowship was supported by a CRM-MfPH fellowship. Postdoctoral research published in *Vaccine* and *One Health*.

Graduate Research Assistant (University of Arkansas, Fayetteville, AR)

Aug 2017- May 2022

Developed, managed, and executed research to study tumor response to chemotherapy in a small animal model of colorectal cancer. Managed animal colony, collected and interpreted data from experiments, and wrote corresponding manuscripts. Writing duties included as well a grant proposal in collaboration with the main supervisor to support the completion of last dissertation objective. Manuscripts of PhD research were published in the *Journal of Biomedical Optics*, *Statistics in Medicine*, and *Neoplasia*.

Other Relevant Experience

Universidad Rafael Landivar

Teaching Assistant Professor

2016-2017

Professor of Chemistry at the Environmental and Agricultural Sciences Department. Duties included developoing lectures, laboratory supervision, student mentoring, updating laboratory manuals to reduce expenses and minimize ecological impact, and communicating with faculty.

Adjunct Professor

2013-2017

Taught Introductory Chemistry in the Engineering, Environmental and Agricultural, and Health Sciences Departments. Duties included developoing lectures, laboratory supervision, student mentoring, updating laboratory manuals to reduce expenses and minimize ecological impact, and communicating with faculty.

Lacteos Balcanicos Glad

Assistant Plant Engineer

2012

In charge of the production of the main product (yogurt, ≈ 3000 L per week). Duties included personnel supervision, material inventory, production scheduling, quality control reporting.

Awards and Recognition

Fields Institute: Mathematics for Public Health Festival (MfPHFest) October 2022

Received funding to attend the MfPHFest conference and present postdoctoral work done in the field of Statistics. (CAD 1,500)

Centre de recherches mathématiques (CRM) MfPH-CRM Postdoctoral Fellowship July 2022

Received postdoctoral fellowship for one year to analyze public health and behavioral data (CAD 50,000)

BME Rising Scholar June 2022

Selected by the committee of the BME Scholars Program at Washington University in St. Louis to receive mentorship about pathways and professional success in academic careers. Award included paid travel, conference attendance and honorarium.

Professional Awareness, Advancement, and Development (PADD) Scholar 2020-2021

Received funding and participated in the PAAD program to supplement my graduate education in persuasive speaking, commercialization, and data science (USD 1,500).

OMNI Endowed International Scholarship 2020

Granted as a scholar fulfilling the mission of the OMNI Center in Fayetteville (USD 500)

Fulbright Faculty Development Scholarship 2017-2019

Scholarship covered all costs of my PhD for the first two years. Only two scholarships awarded for that period in the whole country. (USD 78,000)

Grants

Canada Institutes of Health Research (CIHR) 2023

Co-investigator in the grant "epidemiological modelling of behavioural impact on mpox mitigation strategies" lead by Prof. Nasri from Université de Montréal. Involved in the writing of the grant proposal, performing literature review, communicating with team members, and revising the final grant draft. Funding secured: CAD 412,000. The proposal was in the 50% rank within the competition. Record of the grant can be found in the [CIHR funding decision database](#).

Arkansas Biosciences Institute 2021 seed grant competition 2021

Main author on a proposal co-submitted with Dr. Timothy Muldoon to examine gene expression and optically derived markers in a mouse model of colorectal cancer. Funding secured: USD 30,000. The proposal scored in the top 2 of all the individual research projects for the cycle.
